

THE
ORIGINAL

THE ORIGINAL. SINCE 2012.

— My vision was to develop a head protection that guarantees maximum safety in the most extreme situations, and impresses with its unique comfort and design.

After years of research and development, we have created PROTOS®, which has been setting new standards for over 10 years and is now the number 1 head protector in the world.

PROTOS® repeatedly convinces with technologically innovative and integral solutions, thought out down to the last detail.

Our commitment to maximum security for all heads and our passion for revolutionary and exciting technologies push us forward and make room for new visions that never end. New visions that make PROTOS® what it is since 2012: **The Original.**

— **Anton Pfanner**

Founder, Managing Director, Visionary

**PERFECTION
IN EVERY DETAIL.**

The safest head protection in the world.

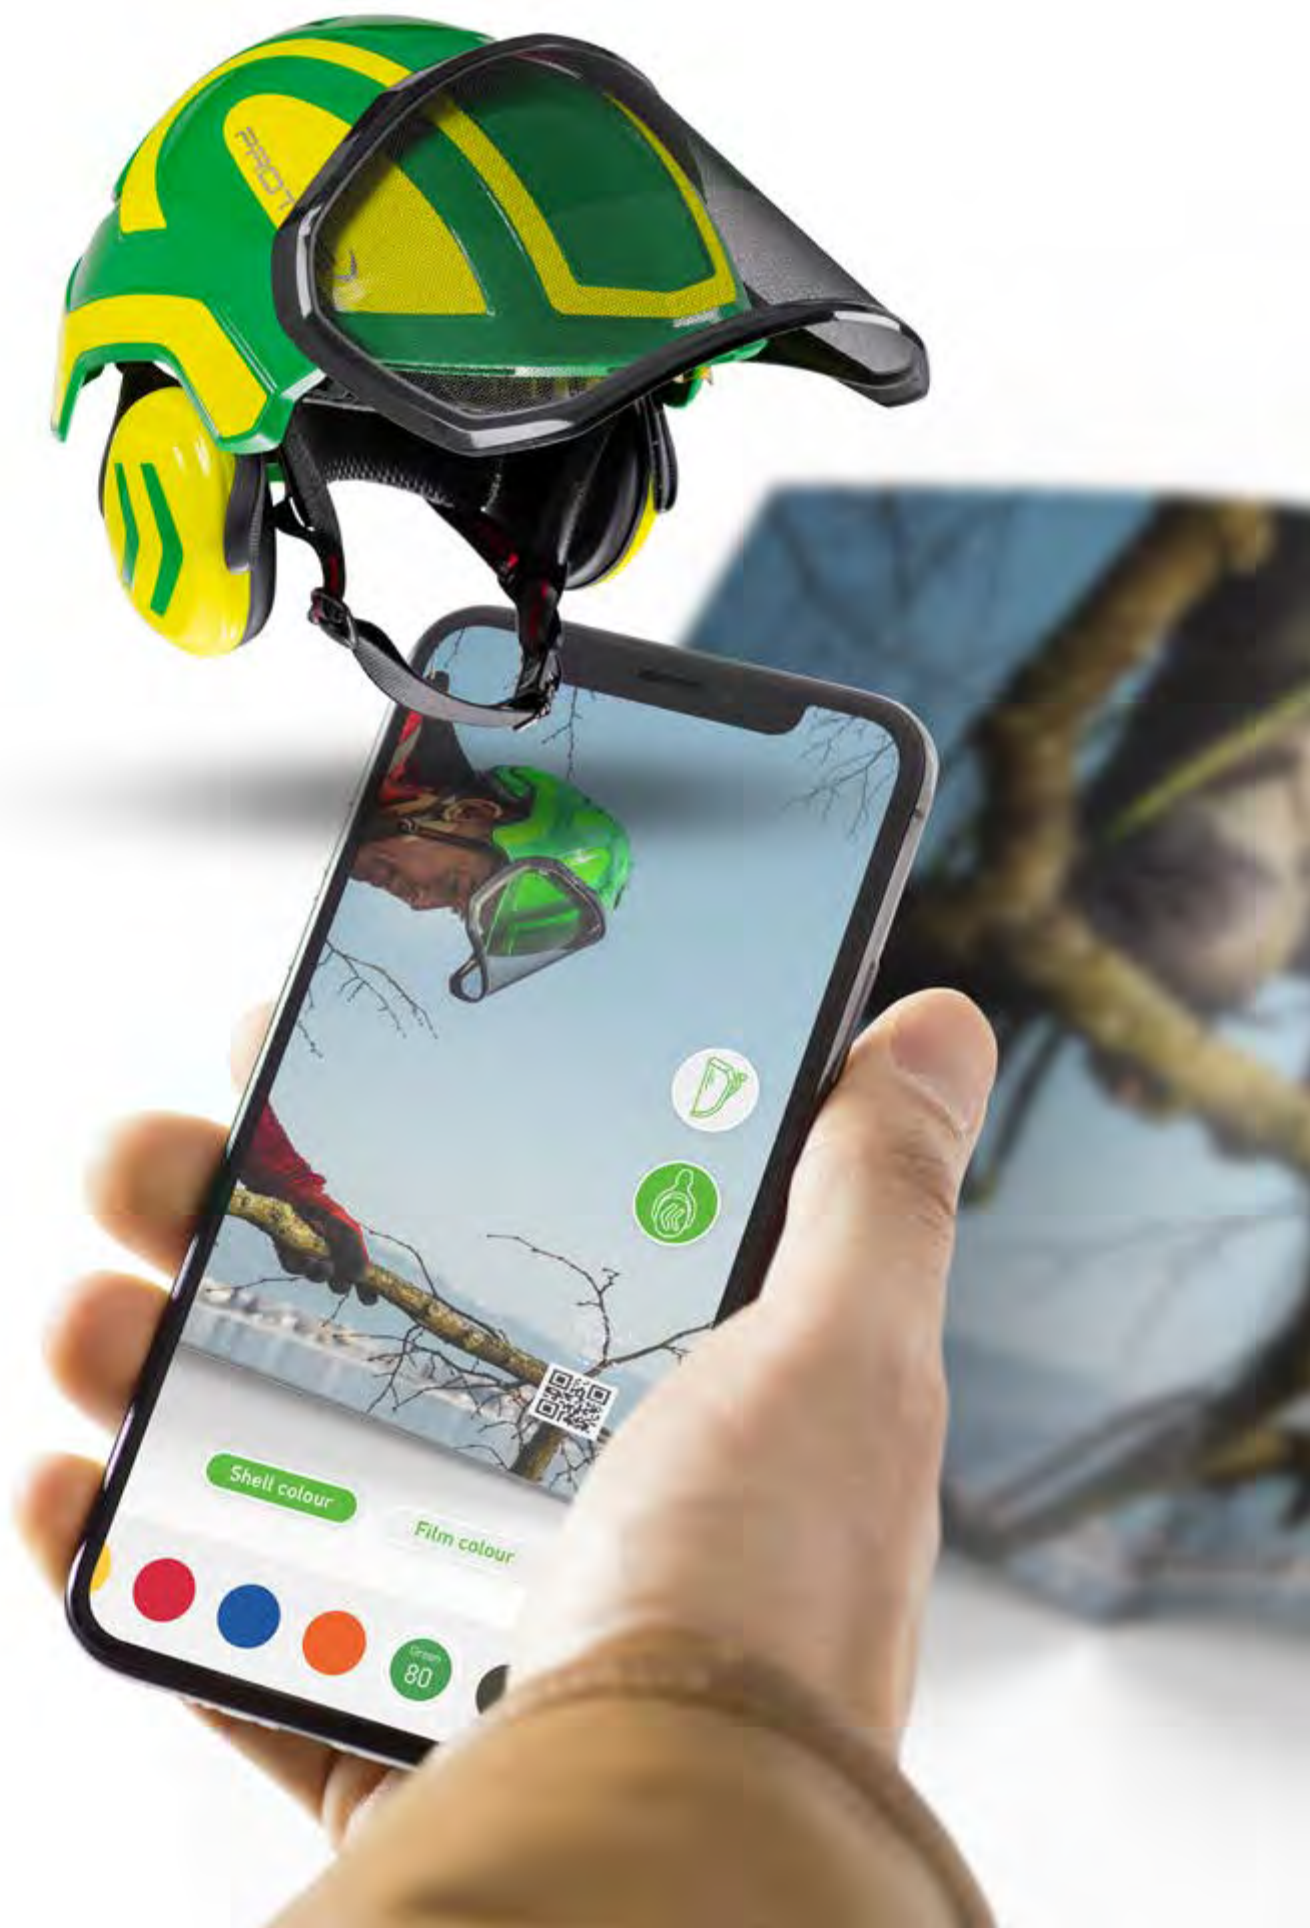

Since its market launch in 2012, PROTOS® has become the absolute benchmark. Created in Vorarlberg/Austria and traditionally manufactured in the region, PROTOS® incorporates the most innovative technologies in every detail to make everyday work in extreme hazardous areas significantly safer.

We are looking forward – based on a unique idea, we are constantly developing PROTOS® to meet tomorrow's challenges today.

So you can reach your limits.

Our company in Koblach, Austria, is certified according to the international standard ISO 9001:2015.

PROTOS® INDUSTRY READY FOR THE CHALLENGE.

PROTOS® INDUSTRY

Ready for any kind of weather.

For building industry and civil engineering, assembly and maintenance or other varied activities. Outstanding safety paired with unparalleled wearing comfort provide all-round head protection – since 2012.

PROTOS® has an unobstructed field of vision and absorbs optimally not only vertical, but also horizontal impacts. Thanks to its 20-step size adjustment on the patented quick-release neck cradle, it can adapt dynamically to any head shape.

The adjustable ventilation slider and KlimaAIR® main pad ensure a dry and cool head. PROTOS® can be enhanced or converted in no time by means of a modular system.

PROTOS® Industry – versatile, dynamic, colourful.

PROTOS® CLIMBER TOP PERFORMANCE IS A MATTER OF MIND.

PROTOS® CLIMBER

PROTOS®, a matter of mind.

High altitude operations, technical accident, altitude or mountain rescue: PROTOS® is ideally suited for every mission.

PROTOS® is also equipped with the MaClip chin strap and a CrashAbsorber with a guaranteed 5-times higher shock absorption. The high-tech honeycomb structure, in combination with the ventilation slider, ensures optimal airflow directly around the head.

More safety and unparalleled wearing comfort make PROTOS® perfect whether it's sunny or rainy.

PROTOS® Climber – head protection for top performance.

PROTOS® FOREST INDISPENSABLE.

PROTOS® FOREST

Proven a million times over.

The forestry sector and its extreme requirements were and still are the starting point for the development of PROTOS®.

From the visor to the hearing protection, all components are integrally designed and prevent snagging on branches, bushes or thorns. Even when the visor or the hearing protection are in a park-position, PROTOS® stays comfortably on the head.

High-quality accessories make PROTOS® the first choice in forestry and tracking, regardless of whether it's cold and wet or hot and dry – with no ifs or buts.

PROTOS® Forest – for unconditional use.

PROTOS®
BT-COM
GREAT
ACHIEVEMENTS
TOGETHER.

PROTOS® BT-COM

Stay in touch.

Safety means being able to communicate reliably with your team in any situation. PROTOS® BT-COM enables reliable communication for up to four users in the intercom network via Bluetooth® technology.

Thanks to two-way digital communication, radio interference is overcome. An additional advantage is the directional gooseneck microphone, which suppresses background noises by means of an additional integrated condenser and ensures clear communication.

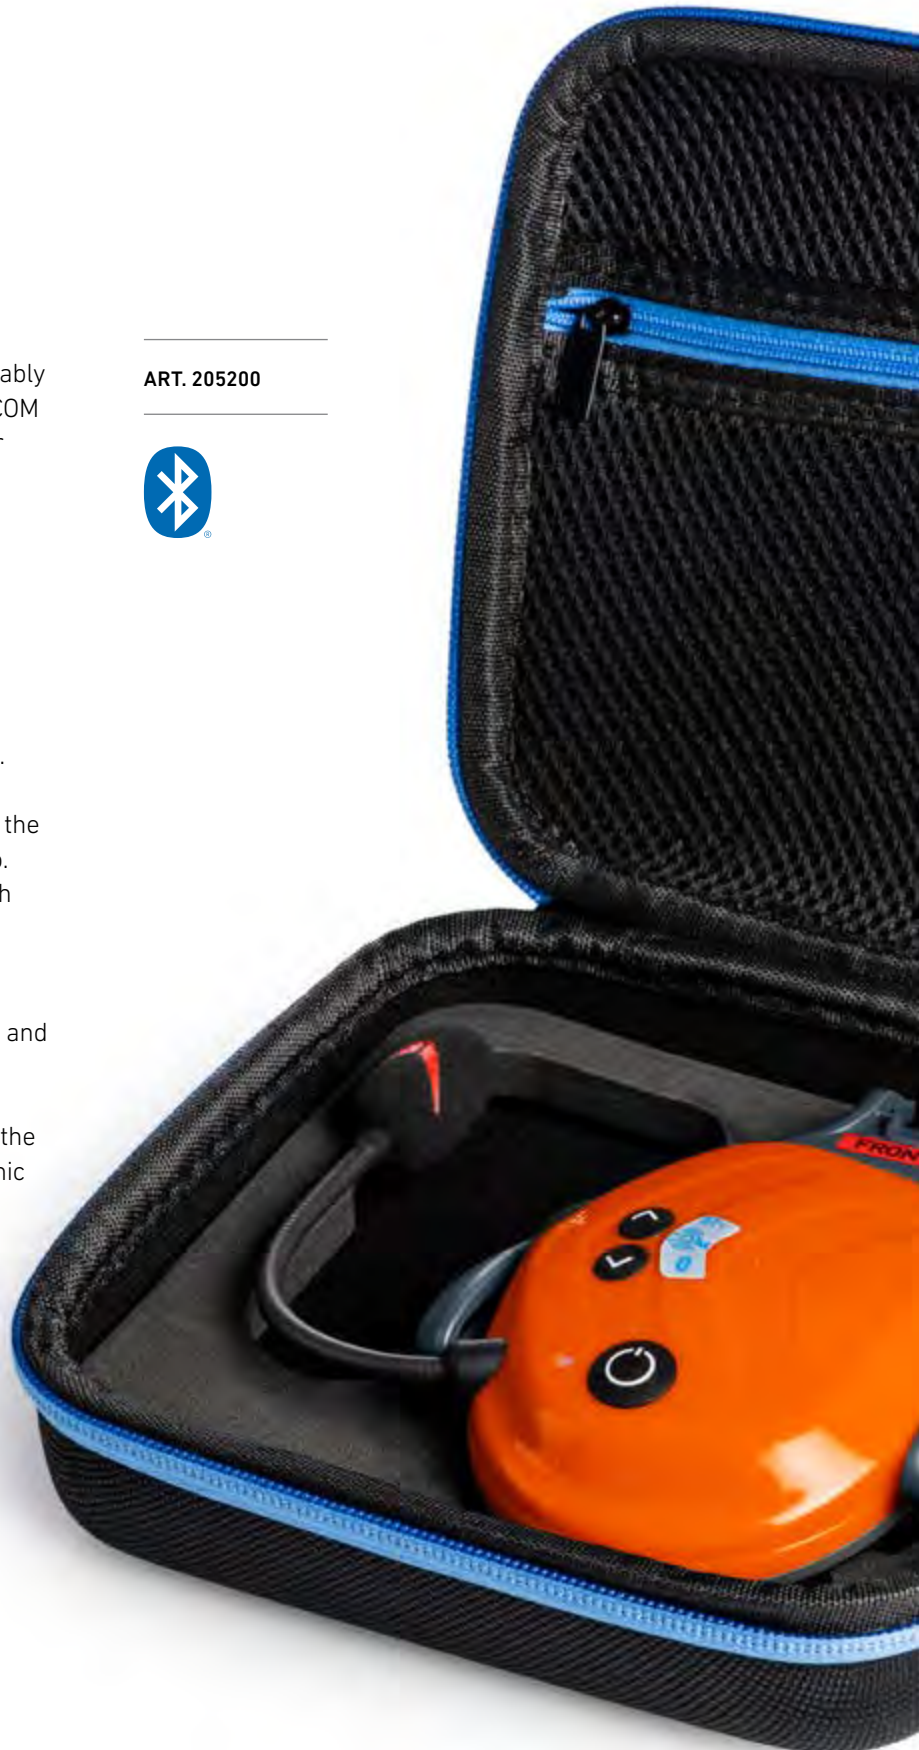

A larger range can be achieved by combining the device with a mobile phone or handheld radio. The PROTOS® BT-COM is very easy to use with just three buttons.

Full-duplex communication ensures that the users can talk to each other at the same time and without delay, for at least 8 hours.

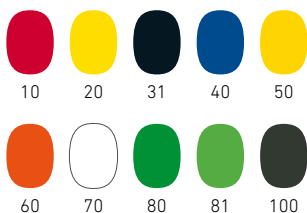

Of course, the BT-COM is fully integrated into the hearing protection capsule providing a dynamic park-position of the BT-COM capsule into the PROTOS®.

PROTOS® BT-COM – communicate clearly from dawn to dusk.

ART. 205200

AVAILABLE IN 10 COLOURS:

PROTOS® BT-COM
MICROPHONE PAD

PROTOS® BT-COM
ABSORPTION INSERT
(1 unit).

PROTOS® BT-COM
USB-CHARGING BRACKET

PROTOS® BT-COM
SHOULDER-ACTIVATED
TALK BUTTON

What makes PROTOS® BT-COM stand out:

- Up to four users in the intercom network
- Range up to several hundred metres
- Uninterrupted and clear communication
- Possible use as Bluetooth-headset for Bluetooth-enabled devices such as mobile phones, audio devices, GPS navigation devices, handheld radios, Bluetooth intercoms
- Free smartphone app „PROTOS® Control“ with useful additional functions (e.g. coupling with handheld radios / emergency number etc.)
- Only 42 g extra weight including battery
- No cables or connectors
- Microphone with background noise suppression
- Extremely easy to operate even with gloves
- Possible unrestricted park-position of the BT-COM capsule into the PROTOS®
- Choice of 10 colours
- Supplied USB-charging bracket

PROTOS® ACCESSORIES SAFETY AND COMFORT.

FACE PROTECTION

PROTOS® ETCH METAL VISOR

Face shield visor with 16 or 39 openings per cm². The special coating reflects sunlight and prevents the visor from icing-up in sub-zero temperatures.

ART. 204064 (G16)
ART. 204063 (F39)

PROTOS® CLIP-ON CLEAR

PET-protective shield, in a set of 5 screens, incl. fixings. The etch metal visor can be converted into a closed visor in no time (e.g. for clearing saw activities). Provides also protection by the clear visor (e.g. against scratches) and can be easily replaced.

ART. 204072

PROTOS® CLEAR VISOR

The polycarbonate visor is tested and approved according to EN 166, protection class 1 F (1 = maximum optical quality, F = increased strength and resistance to high-speed particles).

ART. 204071

PET REPLACEMENT PROTECTIVE SHIELD IN A SET OF 5

(excl. fixings), 0.4 mm.

ART. 204052

PROTOS® SAFETY GLASSES

100 % anti-fog (except by colour 30), tested and approved according to EN 166 / EN 172 (colours 30 and 60) according to EN 166 / EN 170 (colours 0 and 50). Advantages: no impairment of sound insulation, as glasses are attached to the headband, adjustable in length and tilt, nose bridge adaptable to nose size, can be slid up with 2 fingers into the helmet. (Protects from dust and scratches).

ART. 204090

PROTOS® OPTICAL INSERT

For the installation of optical lenses at your optician's, correcting up to +/- 4 dioptries by means of a template.

ART. 204094

PROTOS® UNIQUE SAFETY ON THE HEAD. PERSONAL IN DESIGN.

Safety or styling – why not both?

Make your dream of a unique PROTOS® come true and design it according to your personal ideas.

Choose the colour combination you like and customise the PROTOS® with your logo, name or pattern according to your wishes. Thus, the head protection becomes a unique personal PROTOS® not only thanks to the accessories, but also through your creativity.

All options for easy design at **protos.at** or at one of the over 500 authorised PROTOS® partners.

1

OUTER SHELL

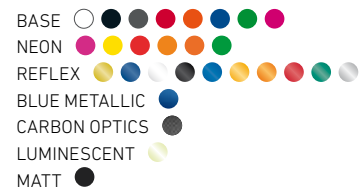

Choose the outer shell from 9 basic colours.

2

FILM COLOURS

The outer shell can be covered with various films on the areas provided for this purpose. In 28 colours, made of different materials and in neon, reflex, metallic, carbon, luminescent or matt.

3

CUSTOMISATION

Whether in company colours, with a company logo or a picture – we design your PROTOS® individually. Either using adhesives on the shell or by visor and capsule printing.

- Customised text and logo elements
- Free choice of base colour
- Customised adhesive on the outer shell
- 4c UV printing on the hearing protection capsules
- 4c UV printing on the etched metal visor (does not change visibility)

4

PRINTING ON THE CAPSULES

To complete the unique piece is also possible a customised design of the hearing protection capsules.

SURVIVALS THAT INSPIRE US.

I just didn't hear the warning call "Timber!". In September 2018, as I often do, I was doing some forestry work in the dense spruce forest when, out of nowhere, a tree weighing over a ton, hit me from behind. The emergency team was quite surprised to find that I was still conscious in view of my serious injuries.

At the hospital, the situation seemed dramatic – severe fractures of the shoulder, vertebrae, pelvis and legs, and a level 1 out of 3 traumatic head injury. However, what the doctors could hardly believe was that despite the severe blow to the back of my head, there was not a single bone fracture in my head and no injury to my cervical spine. The PROTOS® Forest protected me from this and thus saved my life.

After several operations and months of rehabilitation, I went to Koblach and handed over my destroyed head protection to the PROTOS® team. The fact that I was able to walk again without a walker is just incredible.

I survived. Thanks to you.
Tobias

My father Martin works as a lumberjack in the forest. He wears your head protection every day. This was also the case on Monday, February 22. He was working in the forest and a branch of a beech tree fell on him. An ambulance took him out of the forest. My father had a severe concussion, a fractured head and a broken shoulder blade. It was awful! The police, a doctor and his colleagues said, „If he hadn't had such a high-quality head protection, he would not have survived.“ Why am I writing? To thank you and give special thanks for your helmet.

PROTOS® saved his life!

Martin's children Aneta, Martina, Adam and Martin's wife Irena.

One of your PROTOS® Arborist, purchased in 2020, saved my life on Friday last week. The misjudged tension wood came back and hit me head-on at eyebrow level against my forehead. There were fractures in the visual field, but nothing that cannot be fixed with reconstructive surgery. A skull cap or cervical spine fracture was avoided. A few more kilojoules and it would have been over. So, I was still able to make my own way back and get treatment.

After my convalescence, I will definitely buy a PROTOS® again.

Good work, thank you very much!
Stefan

PROTOS® HEADSET LIGHT AND COMPACT.

Equipped for every purpose.

With the unique PROTOS® headset, you are equipped for every application. The headband can be configured individually by simply combining it with the BT-COM and/or the safety glasses. The extremely light construction and the special placement of the support pads prevent pressure points to arise.

Regardless of the position, the headband stays in place and does not slip. The safety glasses can be mounted directly without the 28 dB insulation value being reduced by the brackets. Tested and approved according to EN 352-1.

PROTOS® HEADSET – light, compact, practical.

- Space-saving
- Foldable
- No protruding parts
- Replaceable PROTOS® hearing protection capsule
- Headband with pressure-free support pads
- Can be combined with the Headset Glasses Clips and the PROTOS® Safety Glasses without compromising the sound insulation of the hearing protector
- Compatible with PROTOS® BT-COM

AVAILABLE IN 6 COLOURS:
